SAINT LOUIS

DEPARTMENT OF MICROBIOLOGY
EUCLID AVENUE AND KINGSHIGHWAY

September 8, 1958

Dr. Joshua Lederberg c/o Dr. Robert Alway, Dean Stanford University School of Medicine Palo Alto, California

Dear Josh:

I hope that this meets you on your arrival to tell you that if there are any problems at Stanford that you would like some help with, that I can furnish from here, to feel free to call on me.

I haven't had the chance to tell you how thoroughly delighted we are with your plans to come to Stanford. I think it would be of considerable mutual advantage if you could come to St. Louis for a visit to discuss and facilitate things regarding Stanford planning. I would like to mention just briefly that we are eager to invite Buzz Baldwin to join the Biochemistry Department, and I would appreciate your reaction to this. Also we have bought a house in Alpine Hills, #365 Golden Oak Drive, which is at present tenanted but will be available to us next June 15.

Looking forward to hearing from you,

Since rely,

A Tun

AK/McK

Arthur Kornberg.
